

The 55th annual produce sale held by E A Lane & Sons on behalf of Messrs V E Kirk & Sons of Barkby, Leicestershire saw a good company of buyers from across the country and the usual high quality produce which was on offer on the day saw a good trade with hay being in demand.

The produce was all conventionally baled and the Bale Band-it Revolutionary bale handing system was used to bale with Welgar 830 baler.

Best quality hay achieved strong prices up to £5 per bale and both barley and wheat straw bales saw less demand this year with prices achieving £1.95 per bale for barley straw and £1.50 per bale for wheat straw. A moderate demand for oat straw saw prices at £1.25 per bale.

Mini hesston bales of wheat straw saw a trade realising up to £20 per bale and the 4ft round bales of silage saw prices achieving £32 per bale.

E A Lane & Sons would like to thank everyone who attended the auction and Messrs V E Kirk & Sons for their usual excellent quality produce.
